Subject: QUICK REVIEW REQUESTED: Site tour summaries
Attachments: Site Tours - Draft Summary 160614_NLV.docx

Charlotte, CDC has asked for a brief summary of the site tours to share with CEQ as a follow-up from a call they held with CEQ recently on the progress of the Action Plan. I wanted to provide you an opportunity to review since this will be going outside EPA to CEQ. We don't have much information as to amount of detail or the type of information CEQ was seeking (we did ask and Jackie did follow-up, but no further clarification followed from that), so our thought was to keep it minimal, basic and factual. Please see below and if you have any edits, please send them to Ksenija **by COB today or early tomorrow**. Thank you, Ksenija and Chris – and please add a short footnote as to what “ambient processing” means per my comment in the attached.

Thanks,
Nicole
